

That Feeling

Alabama

I've made some decisions
Never not the best
Against my better judgment
I must confess

I went astray so many ways
So my dreams fall apart
And came a day, I'm glad to say
I followed my heart

That feeling, the one I'm feeling now
Oh, that feeling, that turned me all around
That feeling, oh, what love can do
That feeling, that never let's me down

Oh, that feeling, that always come around
I never need another
It's gonna last my whole life through
That feeling, I'm feeling for you

Looking in the mirror
Reflecting on the past
Memories or misery
That's all fading fast

These eyes over my shoulder
Oh, they made me realize
I've made the right decision
The day I recognized

That feeling, the one I'm feeling now
Oh, that feeling, that turned me all around
That feeling, oh, what love can do
That feeling, that never let's me down

Oh, that feeling, that always come around
I never need another
It's gonna last my whole life through
That feeling, I'm feeling for you

I never need another
It's gonna last my whole life through
That feeling, I'm feeling for you
