

Go There

Alain Clark

Ever since we've been together girl you and I were blinded
Girl it's time to go ahead with things got to get behind it
Baby sex is something that you feel long before you have it
Every single opportunity girl we got to grab it oh grab it now
Let's go look behind that door
We don't have to wait no more

Ain't a lot of wrong in waiting around
But we gotta put some use in the love that we found
Baby we've been holding back for so long
By the time we get it down it's going to be strong

We just got to go there go there
Yea we got to go there go there
We got to go there go there

I can see you need it now you don't have to fake it don't fake
it now
If you want it you can get it girl
You just got to take it just take it now
One and one and one is three
Oh baby won't you get with me

We just got to go there go there
Girl we got to go there go there
We got to go there go there
Got to go there go there
Go there go there
