

# Scared

Albert Hammond, Jr.

You know that something  
Inside of you  
Still plays a part  
In what I do, always  
I'm here for you  
I think  
That if we were all we had  
That's more  
Than most people ever have  
Anyway  
Oh, anyway  
You can stay here

I know you're still there  
Because you're scared  
That you'll lose everybody  
I know you're still there  
Because you're scared  
That you'll lose everything  
I know you're still there  
Because you're scared

I'm here if you're scared  
To go through  
Anything just reach out  
In front of you, always  
Won't you stay near  
So close we played it  
As if we cared  
Don't stop now  
That we're almost there  
Anyway  
Oh, I'm here for you

I know you're still there  
Because you're scared  
That you'll lose everybody  
I know you're still there  
Because you're scared  
That you'll lose everything  
I know you're still there  
Because you're scared

I know you're still there  
Because you're scared  
That you'll lose everybody  
I know you're still there  
Because you're scared  
That you'll lose everything

I know you're still there  
Because you're scared  
That you'll lose everybody  
I know you're still there  
Because you're scared  
That you'll lose everything

I know you're still there  
Because you're scared  
That you'll lose everybody  
I know you're still there  
Because you're scared  
That you'll lose everything  
I know you're still there  
Because you're scared
