

My Heart Is Failing me

Albert Hammond

Here come the teardrops falling again
Seems like the night has come to an end
I wonder why I feel like my heart is failing me

When you were here I knew what to do
Now I just waste time thinking of you
I wonder why I feel like my heart is failing me

My heart's lost in emotion
I'm shipwrecked out on the ocean
I wait hoping you'll come back to me

Never a single day passes by
When I don't feel a part of me die
I wonder why I feel like my heart is failing me

I remember, the day that I found you
How I long to still be around you
So I wait hoping you'll come back to me

I don't know why I never knew
Now I can't live my life without you
I wonder why I feel like my heart is failing me

If anybody should see her
Tell her how much I need her

My heart's lost in emotion
I'm shipwrecked out on the ocean
So I wait hoping you'll come back to me

Here come the teardrops falling again
Seems like the night has come to an end
I wonder why I feel like my heart is failing me

I wonder why I feel like my heart is failing me
