

# Hey Ladi Dadi

Aldo Nova

Yeah, yeah, yeah

I'm the unholy one  
Yeah, I'm the devil's son  
I have so many names  
I can do anything

And all you have to do  
To make your dreams come true  
Is say your soul is mine  
Then sign the dotted line

They said in revelations  
That I would rule the nations  
Lay waste to all the borders  
And start a new world order

I'll pretend to be the new messiah  
But instead I'm just the prince of liars  
I'll promise everything your heart desires  
Tell all your friends and let em get in line

Sing my song, hey ladi dadi  
Spread the word around  
'Cause you just can't stop it  
Like a bullet that's goin' right through your brain  
It's a devil drug that makes you feel no pain

Sing my song, hey ladi dadi  
We're a billion strong  
And you just can't stop us  
When they hear my gospel from your poisoned lips  
Well, they won't be able to resist my kiss  
Well, there's really no place that you can run  
Hey ladi dadi, here I come

You know there's only one  
One who can take me on  
He doesn't know it yet  
But I'm his biggest threat

So you're gonna have to make a choice  
His music's heavenly but I'm just makin' noise  
He sings of love and faith but me I've no remorse  
I'm the all seeing eye I'm everywhere of course

Sing my song, hey ladi dadi  
Spread the word around  
'Cause you just can't stop it  
Like a bullet that's goin' right through your brain  
It's a devil drug that makes you feel no pain

Sing my song, hey ladi dadi  
We're a billion strong  
And you just can't stop us  
When they hear my gospel from your poisoned lips  
Well, they won't be able to resist my kiss

Well, there's really no place that you can run  
Hey ladi dadi, here I come

You've got it made in the shade  
You got two bitches by your side  
You got a pile of cocaine  
And down that hill you will slide  
Well, you went all the way up  
But soon you'll be comin' down  
Cause when I come to collect  
I take my flesh by the pound

Sing my song, hey ladi dadi  
Spread the word around  
'Cause you just can't stop it  
Like a bullet that's goin right through your brain  
It's a devil drug that makes you feel no pain

Sing my song, hey ladi dadi  
We're a billion strong  
And you just can't stop us  
When they hear my gospel from your poisoned lips  
Well, they won't be able to resist my kiss  
Well, there's really no place that you can run  
Hey ladi dadi, here I come  
Yeah, yeah
