

# Electrica Salsa

Alex Gaudino

I warn you about my secret  
I'm going to expose  
A great threat to your bodies  
To your mind and souls  
Don't be alarmed  
It doesn't smell danger  
Stumble in the groove  
Dance with a stranger

Don't have to ask you to get up  
You'll do it in your own  
Electrica salsa, baba baba  
Electrica salsa, mmh mmh  
Electrica salsa, aha aha  
Electrica salsa, baba baba

Believe in what i say to you  
The only james dean  
Is not coati mundi of this music scene  
It's me, my friend  
The master of salsa  
Cabasa down with me  
The beat is getting faster

Don't have to ask you to get up  
You'll do it in your own  
Electrica salsa, baba baba  
Electrica salsa, mmh mmh  
Electrica salsa, aha aha  
Electrica salsa, baba baba

Yesterday's percussion  
Today's technology  
Electrica salsa is in with me  
The new age sound is on the move  
I give you now the second groove

Don't have to ask you to get up  
You'll do it in your own  
Electrica salsa, baba baba  
Electrica salsa, mmh mmh  
Electrica salsa, aha aha  
Electrica salsa, baba baba
