Black The Sun

Black the sun Oh no, look at what we done Go away, oh no, won't you please stay?

And dream of me, I wish you Would dream of me And dream of me, I hope you Will dream of me

Words we speak, pictures are the Only things I keep. Rinse my mind I'm sure it will join me in time

And dream of me, I wish you Would dream of me And dream of me, I hope you Will dream of me

Up on your feet, around the bend Searching, I hope it never ends. Walking your lonely street again, Where tide meets the shore. whoa whoa

On a silent road

And dream of me, I wish you would Black the sun And dream of me, I wish you would Black the sun And dream of me, I wish you would Black the sun, And dream of me, I wish you would Black the sun The sun
