

Shock Me

Alex Winston

I had it then, I took a fall, fucked about, I ruined it
all
You never said that I don't have regrets
A careless tryst, made in the dark, I locked the door,
made him my mark
I promise you I will repent just strap me down, make me
forget

Shock me, don't wait, please do it for me
Shock me or I'm damned beyond repair
Shock me, don't wait, please do it for me
I'll never ask for anything and if you cared
You'd shock me til I'm barely there

Messed it up, do what it takes, make believe, play it
straight
I can learn to like the way this tastes
In forge I will, I carry on, under the rug where it
belongs
And I promise you I can repent, tie me down, make me
forget

Shock me til I'm barely there
