

# All I Want Is You

Alias

What do you got when you got nobody?  
What do you feel when you don't feel love in your heart  
What does it takes to make see I need you  
Cuz without love all I've got to give is wasted on a lonely night  
Without love you don't know when you live, feeling only half of life

All I want is you, baby  
Making love to you girl, it's all I want to do  
And if I have three wishes I'll give away the other two  
Cuz baby, all I want is you

Baby, we got a thing to hold on to  
We got a feeling, something time won't erase  
Now you know in your heart how are you belong to  
Cuz when you got love all your troubles seem really easy out to face  
You got love, you're on top of the world, baby, that you can't replace

All I want is you, baby  
Making love to you girl, it's all I want to do  
All I want is you  
Making love to you girl, it's all I want to do, oh yeah  
All I want, all I want is you!

Cuz when you got love all your troubles seem really easy out to face  
When you got love, you're on top of the world, baby that you can't replace

All I want is you, oh yeah  
Making love to you girl, it's all I want to do  
All I want is you, oh  
Ain't nothing in the world that love would see it through  
And if I have three wishes I'll give away the other two  
Cuz baby, all I want, all I want  
All I want is you...
