## For Veronica's Sake

Alice Cooper

I got my name and number I got my bed assigned I got a dog in the city pound That I left behind I'm strapped down and wild-eyed She's locked up in a pen She needs somebody to feed her And I'm her only friend

So for Veronica's sake I gotta get out of here Yeah for Veronica's sake, she can get pretty weird Yeah for Veronica's sake I gotta get myself out of here

We both been put in cages We got our shots and tags I got my sweatin' fist to shake She's got her tail to wag She has to bark and whimper While I could scream and shout The clock above the psycho ward Says time is running out

So for Veronica's sake I gotta get out of here Yeah for Veronica's sake, she can get pretty weird Yeah for Veronica's sake I gotta get myself out of here

And I can see her howling all night at the lonely moon They're going to give her the gas if I don't get there soon I gotta get there soon

For Veronica's sake I gotta get out of here Yeah for Veronica's sake, she can get pretty weird
