Alison Krauss

New Favorite
They all say it
I'll say it too
You've got a new favorite

You're on standby
You're right hand guy
It's nothing new
You've got a new favorite

Why do you lie about love?
I saw the light go out

And should I go?
You won't say so
I know it's true
I know you've got a new favorite
I know you've got a new favorite

You've got a new favorite
