New Favorite
They all say it
I'll say it too
You've got a new favorite

You're on standby You're right hand guy It's nothing new You've got a new favorite

Why do you lie about love? I saw the light go out

And should I go?
You won't say so
I know it's true
I know you've got a new favorite
I know you've got a new favorite

You've got a new favorite
