

## Apple Kisses

Alison Moyet

How sound my contemplating?  
Counting on your fingers while they're hesitating  
Folded into every fibre of the bed you make  
Are you sleeping somewhere?  
I'm wide awake

Keep me with you  
Hidden in soft vowels and your apple kisses  
Keep me with you  
Sipping soft vowels from your apple kisses  
Keep me with you  
When the truth bends and the word misses  
Keep me with you  
Sipping soft vowels from your apple kisses

It took us so long to accept the changing  
Then come the minute and we're rearranging  
Flowing into my lap  
Like a cat  
Raises the sap  
Do I make it easy?  
Then take it back
