

Until You Go

All 4 One

I've been meaning to tell you
That from far away, baby you caught my eye
You must be from heaven
Cause the way you move
I can't deny that tonight i want to kiss you
Ooh i can't resist you
Everything gonna be alright-gonna be alright

Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
That tonight you'll be mine

Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
That tonight you'll be mine

Just let me hold you
Let me find away to show you what's in my heart
Now and forever, just the two of us
And we'll never be apart

'cause tonight i wanna kiss ya, ooh, i can't resist ya
Everything gonna be alright
Gonna be alright

Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
That tonight you'll be mine

Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
That tonight you'll be mine

From the moment i saw you...
I knew you were the one for me
And know that we are together...
I don't want to set you free...

Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
That tonight you'll be mine

Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
That tonight you'll be mine
Until you go, oh baby, until you go
Let me hold you... all through the night
Until you go, oh girl, i want you know
