

## We Stand

## All That Remains

As if this could change us  
Our roots are deeper than that  
Born and bred the master of ourselves  
And of our hearts

Take the best of me and  
Watch my world fall apart  
Still I remain steadfast in my heart

Walk a darkened road and  
We will be our own light  
Our foundation our core is strong  
Stand for what's right

We stand again, it breaks my heart  
The anger burns and I fall apart

Seasons change me,  
But they won't change my core  
I have struggled I've fought for less  
Still this I know

Belief within my self  
Shall drive me further on  
Still I fear that the past remains  
And so shall I

(Still I fear that the past remains  
and so shall I, and so shall I)

We stand again, it breaks my heart  
The anger burns and I fall apart  
We stand again, it breaks my heart  
The anger burns and I fall apart

Way to go, uah

As if this could change us  
Our roots are deeper than that  
Born and bred the master of ourselves  
And of our hearts

We stand again, it breaks my heart  
The anger burns and I fall apart  
We stand again (we stand again),  
it breaks my heart (it breaks my heart)  
The anger burns
