

## Special to Me

All

special to me. you will always be the one that i think of when i look back upon my life. you love me, fantastic as it may be. even though we both know that it should never be. and i love you even though i know too that our love is taboo. we'll have this time for all time and no one can take it away. special to me. you will always be the one that i think of when i look back upon my life. you love me, fantastic as it may be. even though we both know that it should never be. and i love you even though i know too that our love is taboo. we'll have this time for all time and no one can take it away.
