

# Get High

Alle Farben

Pass me a drink  
'cause I can't wait  
Gonna take you away  
To a better place

And heaven can wait  
'cause it's right here  
A light a line  
It felt so near

And oh  
I'm high up and higher  
And oh  
Let's take it on water  
And oh  
It's hitting me hard  
And oh

I just want to get high  
Forget what you look like  
Forget what this feels like  
Forget about life  
Forget about life

Get high  
Forget what you look like  
I just want to get high  
Forget what you look like

And oh  
I'm high up and higher  
And oh  
Let's take it on water  
And oh  
It's hitting me hard  
And oh

I just want to get high  
Forget what you look like  
Forget what this feels like  
Forget about life  
Forget about life

I just want to get high  
Forget what you look like  
Forget what this feels like  
Forget about life  
Forget about life

I don't want to be here any more  
Take me away

I don't want to be here any more  
Take me away

I don't want to be here any more  
Take me away

Get high

Get high

Forget what you look like  
Forget what this feels like  
Forget about life  
Forget about life

I just want to get high  
Forget what you look like  
Forget what this feels like  
Forget about life  
Forget about life

Get high

Forget what you look like  
I just want to get high  
Forget what you look like
