

# Roof Bay

Alle Farben

No expectations, to feel 'em all  
No need to hurry, I've seen it all  
If I wanna be  
I'm sittin' on my roof bay, my roof bay

No hesitation, there is still some space  
Just take my hand now and feel embraced  
If I wanna be  
I'm dancin' on my roof bay, my roof bay

We'll let our feet  
Hang out down from the sky  
Pretending we could either fall or fly  
And we will tell them the story some day (some day)

Find me on the roof bay  
Find me on the roof bay

Find me on the roof bay  
As long as I'm with you
