

# Threshold of Perception

Allegaeon

Life (life)  
Death (death)  
In due time is the last breath  
Carbon ceased operation right there flashed before your eyes

Decline defined the mind's demise pineal gland's release  
Behind the eyes the mind dies and gives into defeat

Consciousness permanently ceases  
Bringing eternal oblivion

Decline defined the mind's demise pineal gland's release  
Behind the eyes the mind dies and gives into defeat

Overthrown adrenaline owned  
Breathing slows down to begin the heart drop  
Acceptance sets in from within the clock stops

Fading into detachment as black prevails  
No longer repentant brought forth the final exhale  
Life (life)  
Death (death)  
As of now there's nothing left  
Carbon broke down from flesh left to disperse amongst all of th  
is

Decline defined the mind's demise pineal gland's release  
Behind the eyes the mind dies and gives into defeat
