

Truth About Our Time

Allen-Lande

I won't tell, I won't show
I won't give them what they want
No one else will find our little secret

Not a word, my lips are sealed
It won't help to torture me
No kind of pain will make me talk this night

Try to see it in my eyes
But I will only give you lies
You should know that this is only waste of time
Try to read it from my mind
There is nothing you will find
Before you really understand

When we all believe
I will give you answers
We will all receive
The truth about our time

Never too late to change your ways
Never too late to change your mind
No need to keep your secret to yourself
No more time to fool around
No more time for stupid games
The moment has come to let it out..
