

Casanova

Allie X

I'm here dancing on the edge of the night
I'm sleep walking with a hand full of blue dice
One hail Mary for the hole in my heart
I'm outside waiting for your love on the boulevard

You're a heavenly creature with a real dark agenda
You can turn a believer, into a damn dirty sinner
Am I having a seizure? Cause I'm shaking up with fear
Oh I know, yeah I know that

You're no casanova, got to let you go
Hit me on my blind side, left me on the floor
Now I can't see the bright light, body getting cold
There's something 'bout your touch that I can't leave alone

Casanova fuck me over, left me dying for your love
Casanova, casanova, now you're all I'm thinking of

I'm here lying on the bed of your tongue
My heart listens to the sound of your warped drum
Steady to the tow to the neck of your woods
I feel danger on your lips but it tastes good

You're a heavenly creature with a real dark agenda
You can turn a believer, into a damn dirty sinner
Am I having a seizure? Cause I'm shaking up with fear
Oh I know, yeah I know that

You're no casanova, got to let you go
Hit me on my blind side, left me on the floor
Now I can't see the bright light, body getting cold
There's something 'bout your touch that I can't leave alone

Casanova fuck me over, left me dying for your love
Casanova, casanova, now you're all I'm thinking of
Casanova fuck me over, left me dying for your love
Casanova, casanova, now you're all I'm thinking of

La, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la, la, la
