

# Anything You Want

Allure

I use to think that  
Love could never happen  
To someone like me  
Until I saw you walking next to me  
Now I'm certain that anything can happen  
But I need you to help me  
Baby set me free

Anything you wanna do  
I'll be right by your side  
I'll be there to give you all the love you need  
Morning, noon, and night

Honey you know  
I've been thinking  
About some things we could do  
How 'bout it, just me and you  
Tell me what you been doing  
I think we can get into it  
Anything you wanna do  
Baby it's up to you

I know it's alright  
(I know)  
The feeling is right  
(I know this feeling so right)  
I know it's OK  
I'll show you the way  
(Anything that you wanna do
