2 AM, I'm fading in the dark Like floating in the ocean People need the poison 3 AM, you just touched my hand And made me lose my focus I almost didn't notice

And I better know what to do
Who's gonna be the first one to move?
I wanna get closer to you
(I wanna get closer to you)
And I better know what to do
Who's gonna be the first one to move?
I wanna get closer to you

I was chasing highs
'Till I found you
We're doing it in slow motion
We're doing it in slow motion
I was chasing highs
'Till I found you
You are getting closer in slow motion

I'm chasing hi-hi-hi-highs
I'm chasing hi-hi-hi-highs
I'm chasing hi-hi-hi-highs
You are getting closer in slow motion

4 AM, almost touching you Drowning at the noises In between the voices 5 AM, there is something more I caught the look you gave me Faces going hazy

And I better know what to do
Who's gonna be the first one to move?
I wanna get closer to you
(I wanna get closer to you)
And I better know what to do
Who's gonna be the first one to move?
I wanna get closer to you

I was chasing highs
'Till I found you
We're doing it in slow motion
We're doing it in slow motion
I was chasing highs
'Till I found you
You are getting closer in slow motion

I'm chasing hi-hi-hi-highs
I'm chasing hi-hi-hi-highs
I'm chasing hi-hi-hi-highs
You are getting closer in slow motion

I stopped counting the hours

Space between us getting smaller and smaller I'm losing my powers
I'm falling higher and higher with you

I was chasing highs
'Till I found you
We're doing it in slow motion
We're doing it in slow motion
I was chasing highs
'Till I found you
You are getting closer in slow motion

I'm chasing hi-hi-hi-highs (ooh yeah, ooh yeah)
I'm chasing hi-hi-hi-highs (I'm chasing, I'm chasing)
I'm chasing hi-hi-hi-highs (ooh yeah, ooh yeah)
You are getting closer in slow motion
