

Stay All Night

ALMA

How we'll know the answers
Cause sometimes we don't even know the questions
My mama said we only got two options
Either we gon' live or we die

Don't worry 'bout the actions
Think about the worst thing that could happen
Would it really be that fucking bad?
Would it be the end of the world?

I could be a mistake and, you could be a heart break
It'll be ok, I know, I know
I could be a mistake and, you could be a heart break

So why would you leave?
You could stay all night
This could be real
So don't say goodbye
Don't let this go
Cause we'll never know
So why would you leave?
You could stay all night
Oh-oh

You could stay all night
This could be real
So don't say goodbye
Don't let this go
Cause we'll never know
So why would you leave?

How we'll know the answers
If we're never taking any chances
My mama said we only got two options
Either we gon' live or we die, live or we die

I could be a mistake and, you could be a heart break
It'll be ok, I know, I know
I could be a mistake and, you could be a heart break

You could stay all night
