Kings and queens and frogs and princes Gnomes and dwarfs and dragons old Treasures hidden, golden sphinxes Lovely maiden, giants bold

Hush, my little lovely darlings Dream on through the deepest night Here's a kiss for each of you Wonder where you're going to

When you're sleeping tight Return to paradise

Sometimes when it's really quiet
I come running to your bed
Listen hard to hear you breathing
Stroke your tender little heads

You are flowers sent from heaven On a gentle golden breeze Here's a kiss for each of you Maoamoondog's singing too

Lullabies of peace Return to paradise Return to paradise Return to paradise

On a ship to elfland wonders
Just a little trip away
There you're playing in the starshine
Underneath the milky way

All the angels in their glory Will be watching over you Dream on while the stars are falling (Falling on you)

May your dreams come true Return to paradise

May your dream come true May your dream come true Return to paradise
