

# One Life

**Alter Bridge**

One light  
Burning from long ago  
The eternal flame  
It's calling me back to find

One life  
With so many tales untold  
Living with open eyes  
I discover a new storyline

If there is meaning in the prose  
From the golden age  
Let its wisdom guide me home  
To a place

Where I am safe  
A clear escape
