

The Squeeze

Alvin Lee

In the early hours
Do you feel the squeeze?
Look back on your dealings
Counting casualties

Tell me how you're feeling
Tell me how it's been
Have you found the meaning?
Have you found your dream?

It's a hard road
It's a hard life
And it's up to you
But it's our world
And it's our life
And you can make it through

When the day is over
And the lights are low
Do you count your blessings?
Do you try to grow?

It's a hard road

It's a hard life
And it's up to you
But it's our world
And it's our life
And you can make it through

In the early hours
Do you feel the squeeze?
Look back on your dealings
Counting casualties

Tell me how you're feeling
Tell me how it's been
Have you found the meaning?
Have you found your dream?

It's a hard road
It's a hard life
And it's up to you
But it's our world
And it's our life
And you can make it through
