

Time and Space

Alvin Lee

As you sit there in the country, do you ever think of me?
As I travel 'cross the ocean, always searchin' to be free

Will I cried last night for you babe?
As I stared out at the stars
Time and space has come between us,
Might as well be up on Mars

Seems that I was born to wonder - seems the devil's on my mind
So I've got to keep on searchin' - til the answer I can find

Will I need so much to hold you?
As I lie here all alone
Time and space has come between us,
Wish that I was comin' home

Seems that I was born to wonder - seems the devil's on my mind
So I've got to keep on searchin' - til the answer I can find

Seems that I just need you, 'cause I love you deep inside
Time and space has come between us, wish that I was by your side
e

Wish that I was by your side, wish that I was by your side
Wish that I was by your side, wish that I was by your side.
