

# Call Out My Name

Amaranthe

Our time has come  
Rise and see what you have become  
Old lessons learned  
Determined to reap what they've earned

No, I'm not the same  
Seen my own shadow and gone through the shame  
But this is the price  
I'll let all my demons awake

When they call out my name

R: See, it's always the same  
Come on hear my whisper  
And call out my name  
And I'll see into the insanity  
I will never say this is fate  
Whenever you need me  
Just call out my name  
And I'll be there with your insanity

It has begun  
Wake and see your freedoms undone  
Let reasons mourn  
Escape from a life overturned

I am going insane  
Enraptured by secrets revealed by my pain  
But what is the price  
To let all my demons awake  
When all senses prevail

R: See, it's always the same...

So call out my name

No longer turn when they're around  
I've put my feet back on the ground  
Have no intentions to return

That's why I burn  
My lesson learned

See, it's always the same  
Come on hear my whisper  
And call out my name  
And I'll see into the insanity

R: See, it's always the same...

So call out my name
