

How would it end  
If the truth was re-writable  
Break with past  
Whatever dreams you long for  
I've seen what the future has in mind for me

Throwing the spear into the heart of the void  
Counting the odds  
Like I am out of control  
It's like a fight against the gravity

Breaking the code's  
Like a mission impossible  
Letters that falls  
I'm only partly mechanical  
My strength is my weakness  
Please unfasten me

Infinity, for a moment in time  
Will memories be revived  
I turn the page in the chapters of life  
Infinity keeps me alive

Stuck in a wheel  
I'm alive it's a miracle  
What should I do about the pain is this critical  
You know that the future looks the same for me

Watching my life  
Leaving everything inside of me  
While the sun  
Devours our history  
This time there's no turning back I leave it be!

Infinity, for a moment in time  
Will memories be revived  
I turn the page in the chapters of life  
Infinity keeps me alive
