```
You must be lost in a faraway land I searched forever your footprints in the sand I feel you need me, I have to answer That desperate call that I do not understand
```

A burning bridge, a lonely highway Another dark night thinking alone What could've happened, am I just dreaming It doesn't matter but there's one thing that I know

```
If I could make it to the border
If I could make it to the coast
If I could make it to the border
I'd be in the arms of the girl I love the most
```

So on and on I keep on running
To make the border before the light
Just one more river, then I can make it
Again you'll be in my arms tonight

```
If I could make it to the border
If I could make it to the coast
If I could make it to the border
I'd be in the arms of the girl I love the most
```

```
If I could make it to the border
If I could make it to the coast
If I could make it to the border
I'd be in the arms of the girl I love the most
```
