

# Come Around This Town

American Aquarium

Well it's been two weeks and three days  
Since my eyes have seen the glory of your face  
But your voice and drug of choice are in this place  
Your words are my Amazing Grace

Well honey you spin me around  
Pick me up when I fall to the ground  
Help me swim when I thought for sure I'd drown  
You're the only reason I come around this town

Well the calendar turns days into weeks  
Like a second-hand magician on the street  
But it's a twisted game of hide-and-go-seek  
When you hide your lies right in front of me

Well honey you spin me around  
Pick me up when I fall to the ground  
Help me swim when I thought for sure I'd drown  
You're the only reason I come around this town

Well I have stopped countin' the days  
Pretty soon I've given up on this place  
But baby, if you'd come back home and stay  
I'll keep all your bad dreams away

Well honey you spin me around  
Pick me up when I fall to the ground  
Help me swim when I thought for sure I'd drown  
You're the only reason I come around this town  
Why come around this town  
Still come around this town  
Oh, come around this town
