

Louisiana Beauty Queen

American Aquarium

You're the prettiest girl I ever have seen
From South Carolina to New Orleans
You got the long, dark hair and those big,
doe eyes
I'm going to find a way to make you mine

So I bite my tongue and grab my drink tight
I said "Baby, what you doing on Saturday
night"
She said "Good God a-mighty, bless your
soul
Pick me up at seven and let the good times
roll"

Now baby, I just want to fall in love with
you
Now baby, I just want to fall in love with
you
Now baby, I just want to fall in love with
you
Now baby, I just want to fall in love with
you

You ain't so bad, you ain't so tough
You ain't that old but you're old enough
What do you say we go back to your house
You ain't "Miss Right," but you're Miss
Right Now"
