

# Northern Lights

American Aquarium

I'm just a passing ship in the dark  
Never stay 'til the morning, makes leaving too hard  
I've made a living breaking young girls hearts  
It ain't no fun when your hearts the one that starts falling apart

So when the day turns to night  
And the path is hard to find  
Won't you be my northern lights

Anything I've ever loved  
I found a way to love  
Anything I've ever lost  
I've found an excuse  
So don't give up on me babe  
If it's the last thing you do

Don't cut the strings of the only thing  
I'm holding on to

'cause when the day turns to night  
And the path is hard to find  
Won't you be my northern lights

And I'm tired of running away  
I'm tired of bringing you down  
I'm just hoping there's a way  
We can turn this ship around

When the day turns to night  
And the path is hard to find  
Won't you be more northern lights  
Northern Lights
