

## Hurtlin'

American Steel

I know that you've been lonely  
I've been losing my mind  
Hurtling down the highway  
In this Ford Econoline

But everything's alright now babe  
More than you know  
We drive all night gal  
'Cause I'm coming home to you  
I'm hurtlin' home to you

I know you've waited for me  
And I have been loyal to my heart  
Ten thousand miles  
Can't tear our love apart

But everything's alright now babe  
More than you know  
We drive all night gal  
'Cause I'm coming home to you  
I'm hurtlin' home to you
