

## Another Day

Amy Diamond

I'm sorry for all the words I didn't say  
It's too late - cause now you've gone so far away  
I feel like I'm lost - with nothing left but shattered dreams  
So lonely - I'm holding on to memories

But then I feel your love surrounding me  
And it takes away the pain inside of me  
I believe, I believe we'll be together

Another day - Another time and place  
Somewhere, someway - we'll meet another day  
Another day - belongs to you and me  
Somewhere, someway - Another day

Oh darling, we may be so far apart  
But I know that you'll always stay inside my heart  
Forever - cause you're the only love I've known  
Together - I'll never have to be alone

Your spirit gives me hope to carry on  
I understand that even though you're gone  
Life goes on, life goes on without you baby

Another day - Another time and place  
Somewhere, someway - we'll meet another day  
Another day - belongs to you and me  
Somewhere, someway

Another day - Another time and place  
Somewhere, someway - we'll meet another day  
Another day - belongs to you and me  
Somewhere, someway - Another day
