Twinkling lights
A chill is in the air
And carols everywhere
Close your eyes, it's almost here
Candles and cards
And favorite movie scenes
The smell of evergreen
As special as it's always been
And I have a dream or two
Maybe they will come true

Setting our hopes on a big snow tonight We'll wake up to a world of white It's gonna be a Christmas to remember Light up the fire, play some Nat King Cole Always sentimental and don't you know that It's gonna be a Christmas to remember

I know it's true
Time doesn't stand still
Many things can change
But we know some things never will
The memories we share
The songs we always sing
The mystery of life
The hopefulness this season brings
And I have a dream or two
Maybe they will come true

Setting our hopes on a big snow tonight We'll wake up to a world of white It's gonna be a Christmas to remember Light up the fire, play some Nat King Cole Always sentimental and don't you know that It's gonna be a Christmas to remember
