

# Wish I Was Her

Amy Pearson

Always knew that when we said goodbye  
It wouldn't last forever  
Always thought that I'd run into you  
And we'd get back together

Now you're here just like I imagined  
But never once did it cross my mind  
That you could move on

You've found someone  
It breaks my heart  
Cause you're so in love

I wish that my touch made you smile just like that  
And I wish that I had you the way that she has  
Cause I still remember the love I left behind  
Oh I wish I was her and you were mine

I think somebody's tryna talk to me  
But I can't hear a word they're sayin'  
All I can do is stare at you  
I don't even know why I'm stayin'

Never thought I'd cry to see you happy  
It's just I thought that your happiness  
Was right here with me

I know we're through  
It's no use  
Still I can't help but feel

I wish that my touch made you smile just like that  
And I wish that I had you the way that she has  
Cause I still remember the love I left behind  
Oh I wish I was her and you were mine

The way that you hold her I wish that was me  
There's no place on earth that I'd rather be  
Cause I still remember the love I left behind  
Oh I wish I was her and you were mine

I used to be right beside you  
Now I'm not even kept inside your heart  
I put our love up on a shelf  
But now it's gone cause you belong to someone else

I wish that my touch made you smile just like that  
And I wish that I had you the way that she has  
Cause I still remember the love I left behind  
Oh I wish I was her and you were mine

The way that you hold her I wish that was me  
There's no place on earth that I'd rather be  
Cause I still remember the love I left behind  
Oh I wish I was her and you were mine
