

## Cerulean Twilight

Anathema

I'm lying here, oh so peaceful...  
...In serene harmony  
I'm dreaming yet I feel awake  
I'm dreaming yet I am awake

Subjected to pain. Dark screams repent

And in a foreboding rage, a soul will die...  
...A soul will die

My mind is burning, I'm burning  
I can't feel you anymore  
Have I reached my point?  
Will I drown in delusion?

The winds fell silent  
And in my cerulean twilight  
I left myself once again  
...it's overwhelming  
Suffer yourself, and let me die here awhile
