

## Sunlight

Anathema

Sunlight failed but only for a while  
In the moonlight pale someone made me smile  
The shining almost took me but I made it through that night  
And in the morning life it graced me and I ran for miles  
(Sunlight) In a billion dreams that are lost and won  
(Moonlight) In spite of all you've seen there's only one way out

(Say you will love me until I leave the world)  
In a billion dreams that are lost and won  
(Say you will love me until I leave the world)  
In spite of all you've seen there's only one way out
