

Chain Reaction

Ancient Dome

Target no more unknown
Jason is going back home
To unmask the Big Lie
Our homeland is gonna die

Regents plan is clear at last
To exploit the planet until collapse
Over limits, the only law
An existence under a yoke

Rapid Decay!
A consequence to the
Resources foray!
Centuries of betrayals

Falling step by step into depravity
Chain Reaction!
Blind leading the blind into obscurity
Chain Reaction!
Falling down in a vortex of hypocrisy
Chain Reaction!
Act to recapture identity

Total panic threat is real
Mutiny is not conceived
Machines born to obey
An animatronic game

Sacrifices in the name of greed
Progress to achieve
A new controlled society
Built upon fears

[Solo: MARCO]

A storm of events depends
On making a single decision
The right to make mistakes
Escaping mental prisons

They say "you live and learn"
But deprive you of knowledge
They say "the world is yours"
But they just wanted to destroy all

Rapid Decay!
A consequence to the
Resources foray!
Centuries of betrayals

Falling step by step into depravity
Chain Reaction!
Blind leading the blind into obscurity
Chain Reaction!
Falling/Going down in a vortex of hypocrisy
Chain Reaction!
Act to recapture identity

Chain Reaction!
