

Bad Girl

And One

She's one of a million
But I can see myself in her eyes
She looks familiar to me
What if she's just too blind to see

This is the sound of fooling a star
Dancing around, pretend that you are...

You are a bad girl, bad girl
What you gonna do now?
Cause everybody see what you hide
Bad girl, bad girl
What are you doing tonight?
They call you bitch but you but you rather decide
That you'll take it with a sense of delight
Bad girl, bad girl
What are you doing tonight?

She's a evil commander
With a kind of amusement in her smile
She better surrender to me
Together we'll change the history

Bad girl, bad girl
What you gonna do now?
Cause everybody see what you hide
Bad girl, bad girl
What are you doing tonight?
They call you bitch but you but you rather decide
That you'll take it with a sense of delight
Bad girl
