

## The Aim Is In Your Head

And One

This is the war that you searched for  
These guys are running like a red  
You are the fact of the desert  
Load your gun and watch you run  
The unknown speaks ridiculous  
With a death pack on his back  
This is the way the enemy looks at the war, motherfucker

Reload, hold on, the aim is in your head now  
Reload, hold on, the aim is in your head  
Reload, hold on, the aim is in your head now

Time is over now  
Time is over now

Reload, hold on, the aim is in your head now  
Reload, hold on, the aim is in your head now  
Reload, hold on, the aim is in your head now

Reload, hold on, the aim is in your head now  
Reload, hold on, the aim is in your head now  
Reload, hold on, the aim is in your head now
