

The Dream

And One

Naked on the ocean floor
I'm waiting for a saviour
The deepest dark i ever saw
Wishing me back to shore
Wishing me back to shore

I know things couldn't be undone
Mindless all the games i won
A special pain award
I wish i could break it apart
Sorry for playing with your heart

Hoping you will change your mind
Cause there is no way for me to unbind
A special pain award
So lift me back on board
Sorry for playing with your heart
