

# Who Am I

Andi Deris

Time is standing still  
My mind moves on against my will  
Life itself goes blind  
But leaves a cell where I just find  
You  
I know from a distance  
But how could this be true?  
I see myself come closing in  
It's calling me  
It's calling me

Who am I  
If you are me?  
When I die  
Where will you be?  
Who am I  
Who am I?

Let's me go away  
I fear this place and all it's night  
Help me to awake  
I swear this time I'll stand and fight  
Wait  
Help me please understand before you start  
To fade  
Time begins to tick again  
I'm falling home  
I'm falling home

Who am I  
If you are me?  
When I die  
Where will you be?  
Who you are  
And what you'll be  
Is that my reality?  
Who am I  
Who am I?
