

## Jake`s Dream

Andragonia

My cold home is far behind  
We've turned our world to a dead place  
Can it be real or just a dream?  
Here's where we all start again  
We must put our disgrace far away from our hearts  
(we are on a mission)

My eyes are paralyzed by the landscape  
What an amazing sight we're free again!

We were not called here  
this place, here is not our land  
We must give to this land  
All of our passion  
We must learn from this land  
How to upload our souls  
We will never learn  
We're blinded by our greed

The quest for blood begins  
We let the hate controls our minds  
We think we have the right  
Take this place and kill who's on our way  
Believe War is the only way to justify our crimes

My will confuses my mind  
I don't know who I am

Don't look at me like this  
I don't belong to you anymore  
I have waited my life to feel  
This strength inside of me  
I have my decision  
I've chosen the other side  
I don't want to come back  
I'm the warrior of this land!

Solo 1 : Larenttes  
Solo 2 : Leitao

If you want to fight, I'm prepared  
I've got my belief  
If you want the war, I'll give to you  
I'm one of them  
You won't spread your ambition here  
Your time is over now  
I will show you the way to home  
I'm one of them.
