

## Jesus Saves

Andrew Jackson Jihad

There will come a day when our cells won't regenerate  
and everyone you know will rot away, rot away  
Your friends and enemies and all your family  
we will all be buried in the ground, in the ground  
So make the most of it.  
Life's too short to fuck with.

Once an hour a day I get very sad  
Once an hour a day I get depressed  
When that hour is over I start to feel okay  
because I'm reminded I'll rot away, rot away.

I don't have much time to hang out here and cry  
and though that may feel nice I can't do that everyday  
I've had a lot of friends and they've done a lot of drugs  
and those drugs made my friends rot away, rot away

They say that Jesus saves but Jesus doesn't care  
because he is in a grave, in a grave  
Let's be our own God, take care of ourselves and the ones that  
we love
