

Rub Me Raw

Android Lust

Since you I met
I don't know how
My reasons have failed
This thing I've allowed
Your crystal fey heart
It's easy to crack
So I tread with care
Lest I come under attack

Won't you smother me till I am sick of you
Crush me till I scream for you
Rub me till I bleed for you
Rub me raw

I am dizzy with speed
Split in two
I am sewn by a thread
And stuck with glue
My fingers they stroke
The skin of angels
I am burned by their heat
I was marked before I fell

Won't you smother me till I am sick of you
Crush me till I scream for you
Rub me till I bleed for you
Rub me raw
Burn me till I beg for you
Strip me so I sink in you
Rub me till I bleed for you
Rub me raw
