

It's Your Life

Andy Kim

I know where you go
And I know where you been
I know what you been up to
You know, some say it's a sin

But it's all right
It's your life
And I'll only be in it
For a little while
You'll only be in it
For a little while

Hey, everybody
Everybody, do what you can
Hey, everybody
Everybody, do what you can

Nothing is forever
We're only passing through
As long as you hurt nobody
I said, do what you wanna do, yeah

It's all right
It's your life
And I'll only be in it
For a little while
I'll only be in it
For a little while

Hey, everybody
Everybody, do what you can
Hey, everybody
Everybody, do what you can
Hallelujah

You and me, it felt like freedom
Adam and Eve in the Garden of Eden

I know where you go
And I know where you been
I know what you been up to
You know, some say it's a sin

But it's all right
It's your life...
