

## Over and Over

Angela McCluskey

I walked until you wrong  
You told me this is tomb  
But I will try to never stop loving  
Every Little thing that you do

Over and over  
Under the stars beating by rain  
I won't never feel nothing but pain  
I stop loving you

I walked to your house  
You told me stop this pause  
I will no to never stop living  
Every little way that you be

Over and over  
Under the stars beating by rain  
I couldn't feel anything but pain  
But I had to live a minute without  
you

Over and over  
Under the stars beating by rain  
I couldn't stop feeling anything  
But pain and I was without  
This thing x2

All walls keep us and tombed  
The silence and this lonely room  
Sounds like a house close down
